Replacing a Paper Roll in a TranScan® Rigid

To release the tray press the cover, pull out the tray and remove the cover by releasing the lip.

Remove and discard the remains off the old paper roll.

Load the new paper roll onto the holder (the paper must feed forward from the top).

Feed the leading edge of the paper into the slot at the top of the printer mechanism (press the blue button to operate the printer).

Close the tray and replace the cover.

Press the blue print button

() to operate the printer.

Ensure that the paper is taken up by the printer mechanism.
