Data Management Software

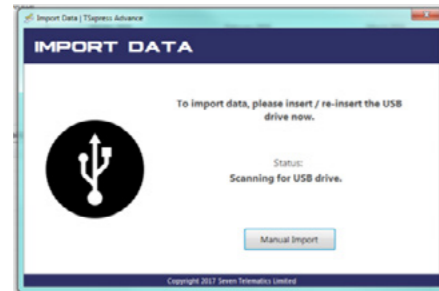

For further information on the products and services offered by Seven Telematics please visit: [www.seventelematics.com](http://www.seventelematics.com)

Seven Telematics reserves the right to make improvements to the products described in this manual at any time and without any notice.

Seven Telematics cannot accept liability for any damages or loss of information resulting from the use of information contained in this document. All rights reserved.

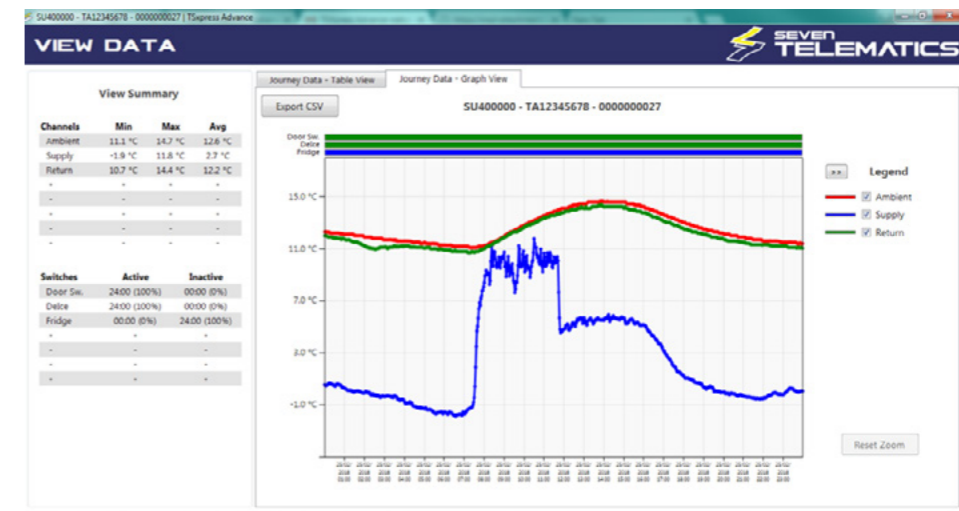

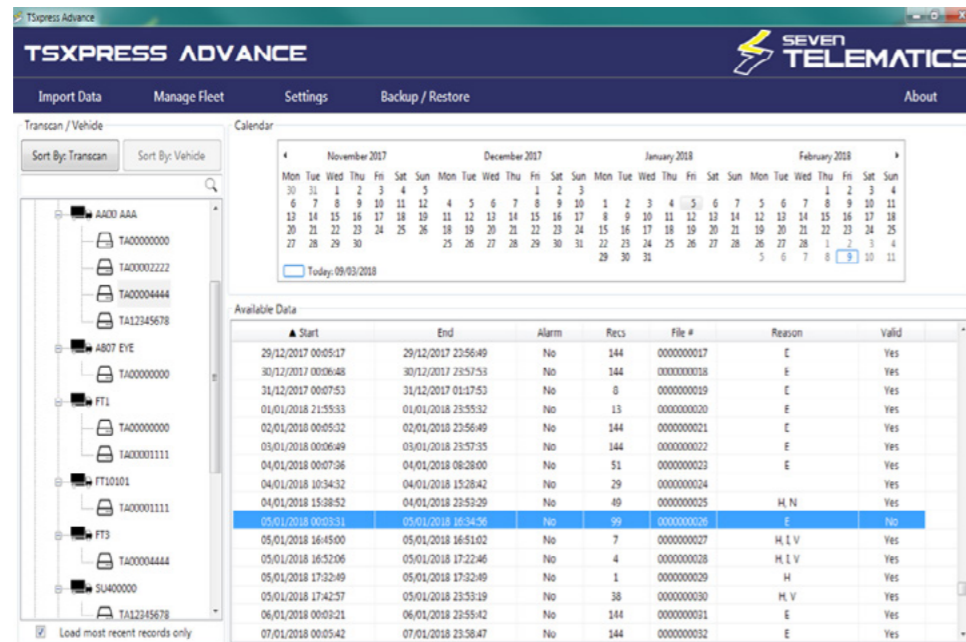

Supplied as a download for quick and simple installation, TSxpress Advance Data Management Software provides a set of tools to allow users of Seven TranScan Advance temperature recorders to store and analyse their data.

Note that this software is not compatible with Transcan2 products.

Data is transferred from the recorder via USB memory stick to the computer

Use the explorer type recorder manager to quickly choose a vehicle from your fleet and review the data available. Select data from the list displayed, double click to display information for the chosen date (file) as a Graph or Table.
